

# PULLMAN SCHOOL DISTRICT Highly Capable Program Information Night

*Join us for a presentation on the referral, assessment, and selection process, as well as the service model in Pullman School District for the Highly Capable Program .*

**Tuesday, February 12th**

**6:00pm-7:00pm in the Pullman High School Auditorium  
(510 NW Greyhound Way)**

This informational session is geared towards parents and guardians who believe that their child might qualify for highly capable services, but anyone who would like to learn more about the Highly Capable Program is welcome to attend. If you are wondering if your child might qualify for highly capable services, one potential indicator is your child earning a score in the 97<sup>th</sup> percentile or above on a Measures of Academic Progress (MAP) test within the past 12 months. You can learn more about program qualification criteria and characteristics of highly capable children in the Parent Information Packet, which can be found on the district [Highly Capable Program webpage](#), or by attending the Information Night.

**For more information on this event, please contact Courtney Hodge**
