
Classes & CTSO Update

What is going well and what needs to be improved?

LMS/Davis: Classes are going smooth. Students are enthusiastic and learning. Number of students per class averages about 29. Great to have students face-to-face – masks do not interfere with learning.

PHS/Brown: AP Computer Science class is going very well. Students are happy to be back 'in-person'. Friday club is popular and provides a space to continue honing programming skills.

4 Year Plan/Program of Work

Review 4 year plan, set goals/make a plan for what will be achieved this year.

LMS does not have a 4-year plan nor does the single PHS CS class. Perhaps as the PHS program grows a 4-year plan can be developed.

Program Review & Approval

Instructor Approval – approval of current year's instructors/suggestions for professional development.

Motion Required DH motioned for approval of Davis and Brown, KY seconded and motion was approved.

Both KY and DH will continue to look for professional development for JB and ED. KY said he has a lot of resources and can find PD for specific purposes if JB and ED have a specific need.

New Courses/Materials

Are there any classes/courses that you are submitting for approval for Spring semester and/or next school year? Are there any course materials you need for new/current courses?

NONE at the moment. JB is considering a Principles of CS class to serve the needs of more students at PHS.

Labor/Market Data

Determine a need for courses/programs based on labor market data.

[NuMetrics CTE Dashboard](#)

None at the moment.

Next Meeting

January 24, 2022, 7:15 am via Zoom. Date and time are tentative – it is too far out for everyone to schedule.
