New Courses/Materials

Discussion of Early Childhood Education course versus Careers in Education

- ECE vs. Careers in Ed
 - Careers in Ed focuses more on the teaching aspect and only touches on human development
 - ECE focuses more on child development and includes the teaching aspect as a part of the development

- ECE could be applicable to all going into work with children: education, pediatrics, medical field, etc.
 - Many (at least three) dual credit opportunities with ECE
 - There are Early Achievers grants that can help with start-up costs
 - LE: Seeing lots of openings in childcare through the valley
- Advisory approves moving forward with either Early Childhood Education or Careers in Education, but the majority would prefer ECE.
- Motion: LE; 2nd: DH; Motion Passed**
