# CHROMEBOOK PROTECTION PLAN

FOR STUDENTS IN GRADES 6-12 ONLY

## ABOUT

The annual Chromebook Protection Plan (CPP) can provide some peace of mind if something should happen accidentally to the Chromebook.

## ENROLLMENT IN THE CPP

Enrollment in the CPP is optional. The CPP cost for Chromebooks is \$5 (non-refundable) per year, per student that covers the first accidental damage.

*Damage by gross negligence and willful destruction are not covered.*

## WHY PURCHASE THE CPP?

The total replacement cost of a district-issued Chromebook provided to students can cost up to \$300. Purchasing the CPP can reduce liability for the student and their family if the Chromebook needs repaired.

Purchase at your school's front office or log into the InTouch online payment system.
