State Program Assurances: Facilities Equipment & Safety

- Laboratories and equipment are comparable to those used in public, private, or home-based workplaces and are appropriate to support the OSPI approved curriculum framework and industry training procedures.
- CTE programs are structured so that safety factors, supervision, and the number of training stations determine the maximum number of students per classroom. Facilities, procedures, and safety lessons taught follow the guidelines as reflected in related federal, state, and court standards.
- If there are industry regulations related to this program, those requirements have been met.

Motion to Approval all State Program Assurances?
